

# Brazil (Campo Grande) - Dental Students (3<sup>rd</sup> Year Students Only) Global Health Professions Student Survey (GHPSS)

## **FACT SHEET . . . . .**

The Brazil (Campo Grande) dental students GHPSS includes data on prevalence of cigarette smoking and use of other tobacco products, knowledge and attitudes about tobacco use, exposure to second-hand smoke, desire for smoking cessation, and training received during dental school regarding patient counseling on smoking cessation techniques. This information could be very useful in monitoring and developing Brazil (Campo Grande)'s comprehensive tobacco control program.

The Brazil (Campo Grande) dental students GHPSS was a census of 3<sup>rd</sup> year dental students attending the 2 dental schools in Brazil (Campo Grande) conducted in 2006. The school response rate was 100% and the student response rate was 93.6%. A total of 100 students participated in the Brazil (Campo Grande) dental students GHPSS.
