SITUATION OVERVIEW

Jamaica, Bermuda and the Cayman Islands started preparedness for any possible introduction of the novel coronavirus – COVID-19 in early January 2020, immediately following identification of the novel coronavirus on 7 January 2020 in China.

The respective national level Committees / Councils continue to guide all sectors in the required preparedness and response actions.

ACTIONS TAKEN:**Jamaica:****- MOHW:**

1. One additional quarantine facility is being monitored as of 6 May 2020 to facilitate the controlled re-entry programme for returning Jamaicans.
2. A new application for self-monitoring by persons in isolation and quarantine was implemented by the MOHW.
3. Additional isolation facilities have been identified to accommodate approximately 300 persons outside of hospital
4. Interim guidelines for the management of pregnant women completed and circulated.
5. Continue contact tracing, testing and quarantine of MOHW workers who are contacts of a confirmed case at the MOHW Head Office.
6. Continue special containment measures for workers and contacts at identified Call Centres.
7. Further the planning and guidelines for lock-downs of parishes and possibly the country
8. Escalate the identification of cases and contacts, contact tracing, establishment of national quarantine and isolation facilities and installation of equipment and materials for case management.
9. Expand community engagement and risk communication for persons in home quarantine and isolation.

- PAHO:

1. Planning and coordination
 - a. 24-hr technical guidance and support to the MOHW EOC and executive, focusing on coordination of health sector activities, re-organization of the health services, epidemiological surveillance, contact tracing, laboratory and case management.
