

COVID-19 Situation Update - 11

PAHO

Pan American
Health
Organization

World Health
Organization
REGIONAL OFFICE FOR THE
Americas

Office for Barbados and Eastern Caribbean Countries

1 April 2020

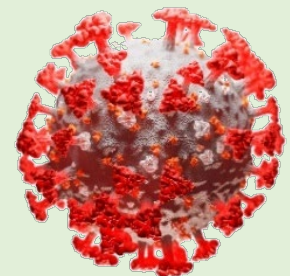

This situation update is on the Novel Coronavirus (COVID-19) reported cases and deaths, Globally, Regionally, for Barbados and Eastern Caribbean Countries, French Territories and the United Kingdom Overseas Territories.

- The key to controlling COVID-19 is the detection and isolation of all cases and the tracing and quarantine of their contacts.
- To establish this capacity in the countries, it is recommended to establish and maintain case-based COVID-19 surveillance and to expand national capacity for laboratory confirmation.
- No treatment and vaccine exist yet but researchers around the world are working hard on this. So far, WHO has received applications for review and approval of 40 diagnostic tests, 50 vaccines are in development and many clinical trials of therapeutics are underway. We expect the first results in a few weeks.
- To ensure clear evidence of which treatments are most effective, WHO and its partners are organizing a large international study, the SOLIDARITY TRIAL, to compare different treatments in many countries and generate the robust data we need to show which treatments are the most effective.
- The trial provides simplified procedures to enable even hospitals that have been overloaded to participate.
- COVID-19 could have serious social, economic and political consequences, especially for the most vulnerable. We call on governments to put in place social welfare measures to ensure vulnerable people have food and other life essentials during this crisis.

BE AWARE.

ACT.

Updates

Global

827,419 confirmed cases,
40,777 deaths *in*
205 countries, areas or territories

PAHO - Region of the Americas

216,912 confirmed cases,
4,565 deaths *in*
51 countries, areas or territories

Barbados and Eastern Caribbean Countries, French Territories and United Kingdom Overseas Territories

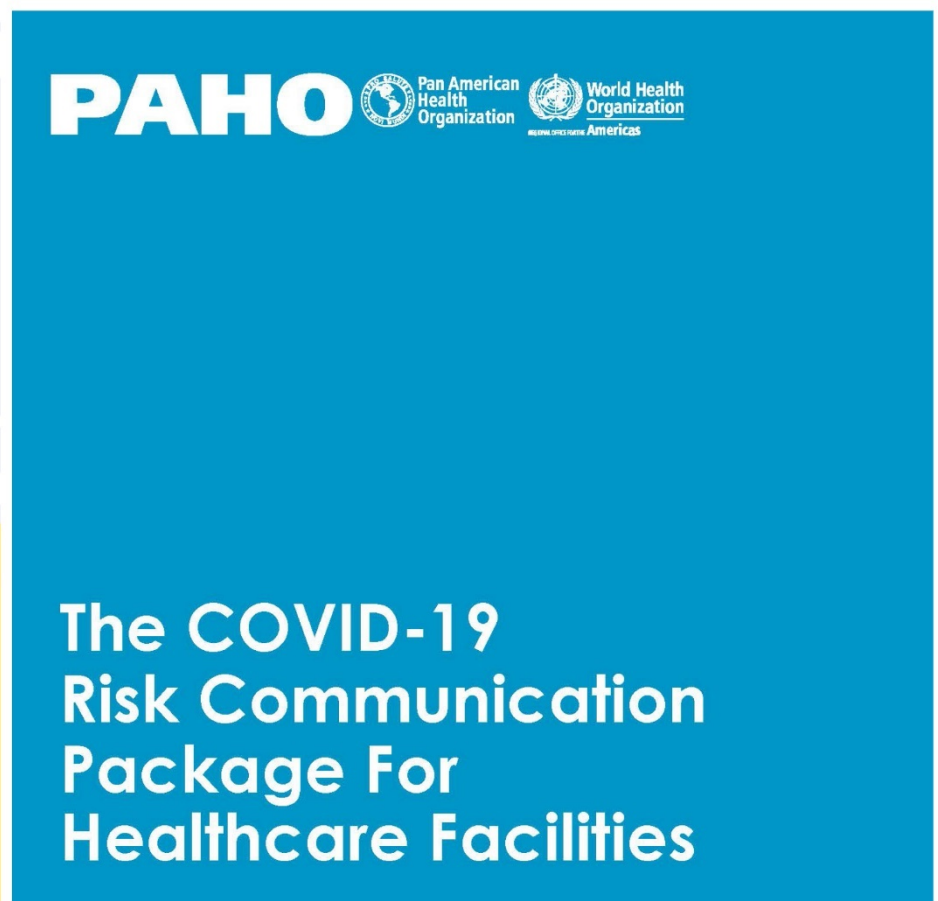

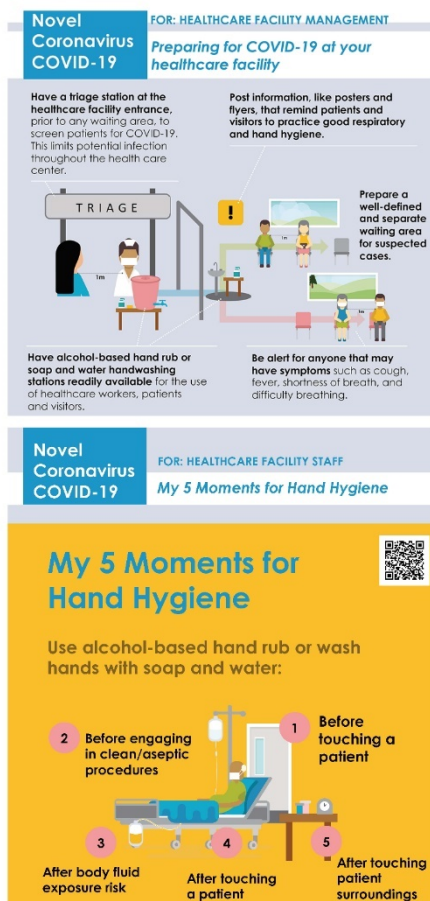

Country	Confirmed Cases	Deaths	No of Tests	Transmission Type	Schools Closed	Travel Restrictions	Social Distance	State of Emergency
Anguilla	2	0	-	Sporadic cases only	Yes	Yes	Yes	-
Antigua & Barbuda	7	0	-	Sporadic cases only	Yes	Yes	-	Yes
Barbados	45	0	382	Clusters of cases	Yes	Yes	Yes	Yes
British Virgin Islands	3	0	52	Sporadic cases only	Yes	Yes	Yes	-
Dominica	7	0	185	Clusters cases only	Yes	Yes	Yes	Yes
French Guiana	46	0	-	?	-	Yes	Yes	-
Grenada	10	0	37	Sporadic cases only	Yes	Yes	Yes	Yes
Guadeloupe	114	5	-	Clusters of cases	-	Yes	Yes	-
Martinique	119	2	-	Clusters of cases	-	Yes	Yes	-
Montserrat	5	0	-	Sporadic cases only	Yes	-	Yes	-
Saint Lucia	13	0	139	Sporadic cases only	Yes	Yes	-	Yes
St Kitts & Nevis	8	0	102	Sporadic cases only	Yes	Yes	-	Yes
St Vincent & the Grenadines	2	0	31	Sporadic cases only	-	-	-	-
Total	381	7						

Table 1: COVID-19 status in Barbados and Eastern Caribbean Countries, French Territories and United Kingdom Overseas Territories. 'Sporadic cases only' indicates countries/territories/areas with one or more cases, imported or locally detected. 'Cluster of cases' indicates countries/territories/areas experiencing cases clustered in time, geographic location and/or by common exposures.

Data in red new.

PAHO's Response

PAHO has produced and disseminated numerous materials about COVID-19. Today we feature the **COVID-19 Risk Communication Package for Healthcare Facilities Toolkit**. Click on the image to download the complete toolkit.

WHO has partnered with **Whatsapp** and **Facebook** and launched an easy-to-use messaging service to help keep people safe from coronavirus.

Receive the latest news and information on coronavirus straight to your phone, including details on symptoms, situation updates, frequently asked questions, and how people can protect themselves and others with correct information.

Text "hi" to get started.

Statement regarding fraudulent messages about PAHO/WHO and COVID-19

Fraudulent messages are being shared about the new coronavirus COVID-19, claiming to be from the Pan American Health Organization / World Health Organization. The majority of these are via email but others are shared on websites or social media platforms.

Many of these messages request information under the false premise that funds, or other benefits, will be received by the Organization.

PAHO/WHO wishes to warn the public that these messages do not come from PAHO/WHO and are in no way related to the Organization's projects or initiatives. PAHO/WHO recommends that anyone in receipt of these types of message verifies their authenticity before responding.

The Organization recommends that no personal information be sent to anyone who claims to issue funds or grants on behalf of PAHO/WHO.

For official information for the public, please check the PAHO website (www.paho.org) and the WHO website (www.who.int). For more information on COVID-19, visit www.paho.org/coronavirus. The Organization's official social media accounts are: Twitter (@pahowho), Facebook (@PAHO-WHO), Instagram (@OPSPAHO) y LinkedIn (pan-american-health-organization).
