Health
Organization

World Health
Organization
REGIONAL OFFICE FOR THE
Americas

Office for Barbados and Eastern Caribbean Countries

17 June 2020

This situation update is on the Novel Coronavirus (COVID-19) reported cases and deaths, Globally, Regionally, for Barbados and Eastern Caribbean Countries, French Territories and the United Kingdom Overseas Territories.

Communities and COVID-19

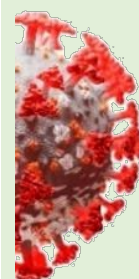

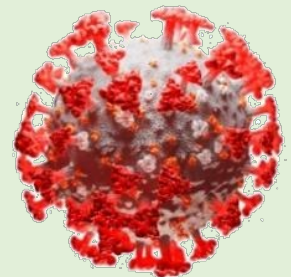

Although professional health workers like doctors and nurses play crucial roles, in many countries trained members of the community play a vital role in delivering essential health services like vaccination, pre-natal screening, and the detection, prevention and management of many diseases. (See DG' statement [on 6 May](#)).

- See WHO, IFRC and UNICEF joint [Risk Communication and Community Engagement \(RCCE\) Action Plan Guidance for COVID-19](#) and the [Community-based health care guidance](#), which outlines the adaptations needed to keep people safe, maintain continuity of essential health services and ensure an effective response to COVID-19;
- In addition, a [basic psychosocial skills guide for COVID-19 responders](#) was developed by IASC to provide practical advice for taking care of one's own mental well-being, communicating with empathy, and helping people suffering from stress or severe distress;
- See also IASC guidelines on [COVID-19: how to include marginalized and vulnerable people in risk communication and community engagement](#);
- See [guidelines on Social Stigma associated with COVID-19](#).

BE AWARE.

PREPARE.

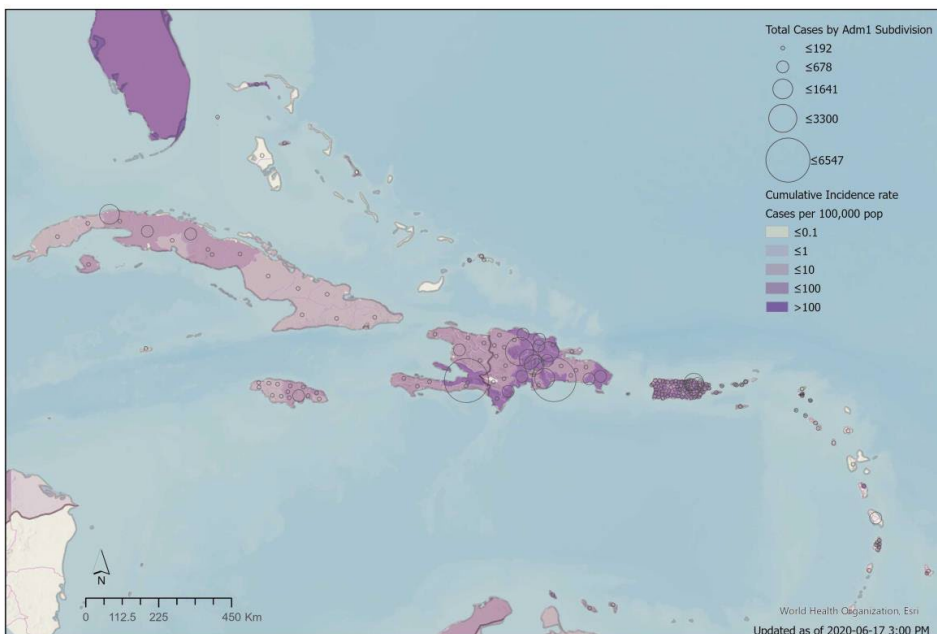

ACT.

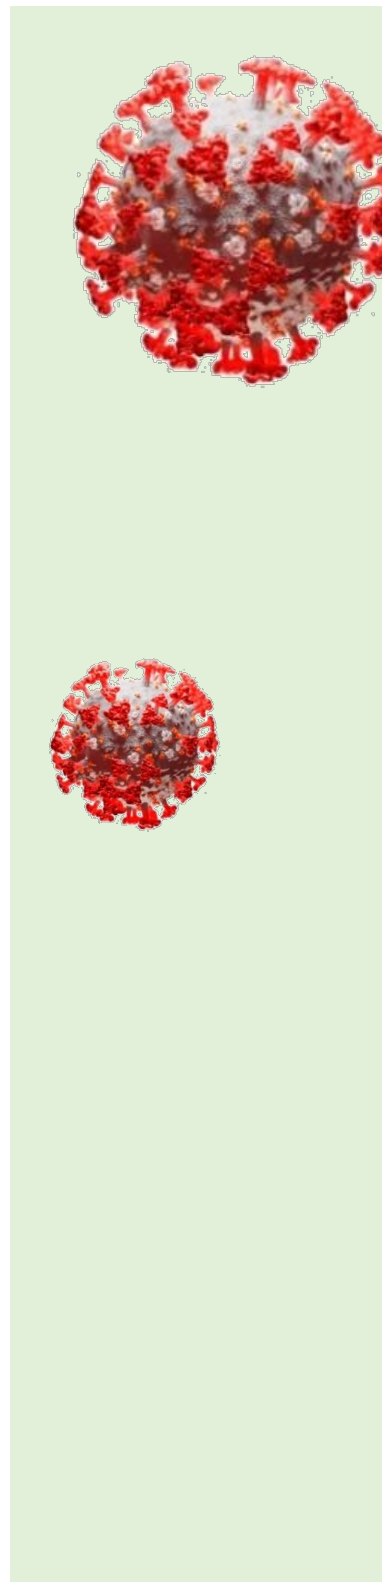

COVID-19 case update: Yesterday Saint Vincent and the Grenadines reported 2 new cases. French Guiana also have additional cases reported. (see *Table 1* on page 3)

Anguilla	- no new cases for 75 days
Virgin Islands (UK)	- no new cases for 31 days
Antigua and Barbuda	- no new cases for 16 days
Barbados	- last case on 15 June 2020
Dominica	- no new cases for 14 days
Grenada	- no new cases for 23 days
Montserrat	- no case for 65 days
Saint Kitts and Nevis	- no new cases for 60 days
Saint Lucia	- no new cases for 13 days
Saint Vincent & Grenadines	- last case on 16 June 2020

Reported number of cumulative COVID-19 cases in the Caribbean sub-region and corresponding incidence rate (per 100,000 persons) by country/territory (sub-national level). As of 17 June 2020.

Total	2224	44							

Table 1: COVID-19 status in Barbados and Eastern Caribbean Countries, French Territories and United Kingdom Overseas Territories. 'Sporadic cases only' indicates countries/territories/areas with one or more cases, imported or locally detected. 'Clusters of cases' indicates countries/territories/areas experiencing cases clustered in time, geographic location and/or by common exposures.

Data in red new.

Disclaimer: Data is updated by 5:00PM each day and there could be delays in reporting. Any discrepancies from national data figures will be edited on the next issue.

COVID-19 has impacted the operation of health services for noncommunicable diseases in the Americas

Washington, D.C., 17 June 2020 (PAHO) - Services for the prevention and treatment of noncommunicable diseases (NCDs) have been critically affected since the onset of the COVID-19 pandemic in the Region of the Americas, according to a survey conducted by the Pan American Health Organization/ World Health Organization (PAHO/WHO).

The virtual rapid assessment of service delivery for NCDs during the COVID-19 pandemic in the Americas, completed by 158 countries around the world, including 28 member states of PAHO, during a four-week period in May, confirmed that the pandemic has had a global impact and that the disruption of routine health services poses a threat to the health of people living with noncommunicable chronic diseases.

“This situation is very troubling because it puts people living with NCDs at greater risk of becoming critically ill or dying if they have COVID-19,” said Anselm Hennis, Director of the Department of Noncommunicable Diseases and Mental Health at PAHO, during a media teleconference organized by the NCD Alliance, the Healthy Latin America Coalition, and Mexico Salud-Hable.
