

KEY:

- 01 - Information station.** People who are going to be vaccinated can read the necessary information for doing so. You can reinforce this point with a person to help with the information.
- 02 - Access to waiting line.** People who believe they can be vaccinated get in the waiting line for entry. The row will be marked to enable people to stay 1.5 meters (6 feet) away from each other.
- 03 - Hand disinfection station.**
- 04 - Check in.** EMT staff will check that individuals who enter are on the list of those who need to be vaccinated that day. If so, the person gets in the waiting line; if they are not on the list, they take the way out.
- 05 - Exit.** For people who will not be vaccinated.
- 06 - Vital signs station.** EMT staff check vital signs of the person to be vaccinated. If they do not have signs of suspected COVID-19, they go to the waiting line as directed; if they have signs, they have to leave the EMT and return when allowed.
- 07 - Waiting line.** With marks on the ground every 1.5 meters (6 feet).
- 08 - Exit.** For people with signs of COVID-19.
- 09 - Check in.** EMT staff registers the person to be vaccinated, and informs them of the vaccine they will receive and the date of the next dose, if applicable.
- 10 - Medical triage and vaccination station.** EMT staff perform medical triage on the person who needs to be vaccinated and, if eligible, the vaccine is administered. If not eligible, the person takes the vaccinated patients exit.
- 11 - Shock room.** For people who have AEFIs. These people may come from the vaccination station or the waiting room. The person is attended and prepared for transfer by ambulance, if needed.
- 12 - Waiting room for vaccinated people.** To the extent possible, a canopy shall be set up to protect people from inclement weather.
- 13 - Exit for vaccinated people.**
- 14 - Staff entrance.** EMT staff enter through a different entrance than people who need to be vaccinated.
- 15 - Hand washing and hygiene station.**
- 16 - Vaccine storage and preparation.** EMT staff stores and prepares the vaccines so that the vaccination station does not stop.
- 17 - Staff washroom, and PPE doffing station.**
- 18 - Waste management area.**
- 19 - Space for storage of infectious waste.**
- 20 - Space for storage of sharps waste.**
- 21 - Space for storage of general waste.**
- 22 - Power generator and technical area.**
- 23 - Dormitory tents.**
- 24 - Dining room / Common room.**
- 25 - Kitchen.**
