

KEY:

- 01 - People who are going to be vaccinated can read the necessary information for doing so.** You can reinforce this point with a person to help with the information.
- 02 - Entrance.** People who believe they can be vaccinated enter the EMT.
- 03 - Hand disinfection station.**
- 04 - Check in.** EMT staff will check that individuals who enter are on the list of those who need to be vaccinated that day. If so, the person gets in the waiting line; if they are not on the list, they take the way out.
- 05 - Exit.** For people who don't have to get vaccinated.
- 06 - Waiting line.** With marks on the ground every 1.5 meters (6 feet).
- 07 - Vital signs station.** EMT staff check vital signs of the person to be vaccinated. If they do not have signs of suspected COVID-19, they move on to check in; if they have signs, they have to leave the EMT and come back when allowed.
- 08 - Exit.** For people with signs of COVID-19.
- 09 - Check in.** EMT staff registers the person to be vaccinated, and informs them of the vaccine they will receive and the date of the next dose, if applicable.
- 10 - Medical triage and vaccination station.** EMT staff perform medical triage on the person who needs to be vaccinated and, if eligible, the vaccine is administered. If not eligible, the person takes the vaccinated patients exit.
- 11 - Ambulance with resuscitation.** For people who have AEFIs. These people may come from the vaccination station or the waiting room.
- 12 - Waiting room for vaccinated people.** To the extent possible, a canopy shall be set up to protect people from inclement weather.
- 13 - Exit for vaccinated people.**
- 14 - Staff entrance.** EMT staff enter through a different entrance than people who need to be vaccinated.
- 15 - Hand washing and hygiene station.**
- 16 - Staff washroom, and PPE doffing station.**
- 17 - Vaccine storage and preparation.** EMT staff stores and prepares the vaccines so that the vaccination station does not stop.
- 18 - Waste management area.** Small area for temporary waste storage if waste receptacles fill up while the EMT is open.
- 19 - Power generator.**
