

What am I?

I'm a deer tick and
I can transmit Lyme disease.

What is Lyme Disease?

It's a disease that can cause a
skin rash, fever, and other symptoms.

Where can I be found?

I can be found in North America,
Europe and Asia.

What can you do to prevent this disease?

- Use insect repellent
- Wear light-colored shirts and trousers
- Examine your clothing and body for ticks
and promptly remove them using tweezers.

Send us your art to events@paho.org
and we will feature it in our website
