

COVID-19 Vaccine Introduction Readiness Assessment Tool

*Preparing the health systems for the introduction of Covid-19 vaccine
Webinars Series II- October 15th 9:30 – 11:00 AM*

COVID-19 Vaccine Introduction Readiness Assessment Tool

- National tool – 5 tabs and 10 areas
- May be used to assess country's readiness to accept a COVID-19 Vaccine

- Data inputs only need to be entered into the worksheet 'National Readiness'

COVID-19 Vaccine Introduction Readiness Assessment Tool

Vaccine Introduction Areas

- A. Planning and Coordination
- B. Resources and Funding
- C. Regulatory
- D. Prioritization, Targeting and Covid-19 Surveillance
- E. Service Delivery
- F. Training and Supervision
- G. Monitoring and Evaluation
- H. Vaccine, Cold Chain and Logistics
- I. Safety Surveillance
- J. Demand Generation and Communication

COUNTRY

NATIONAL READINESS

		Name of staff completing review				
		Date of review	__/__/__	__/__/__	__/__/__	__/__/__
Activities (pre-planning activities are shaded in red; desired timeframe for completion of activities are shaded in light yellow)		Pre-Planning activity	Sep-20	Oct-Nov 20	Dec 20-Jan 21	Feb-Mar 21
A. PLANNING & COORDINATION	A.1 Establish a COVAX National Coordinating Committee (CNCC) for COVID-19 vaccine introduction with terms of reference, roles and responsibilities and regular meetings	<input type="checkbox"/>	Completed			
	A.2 Establish a COVAX National Technical Working Group (CTWG) for COVID19 vaccine with terms of reference, roles and responsibilities and regular meetings	<input type="checkbox"/>	In progress			
	A.3 Establish TWG subcommittees: 1) service delivery 2) vaccine, cold chain & logistics, 3) demand generation & communication (4) prioritization, targeting and Covid-19 surveillance, (5) Monitoring and Evaluation: determination and proof of eligibility, proof of vaccination, monitoring of coverage among at-risk groups, and monitoring of vaccine impact (6) Safety, including injury prevention and AEFI detection and response			In progress		
	A.4 Brief key ministries, NITAG, stakeholders and partners about COVAX introduction and their expected roles			Not Completed		
	A.5 Inform regularly & disseminate global guidance (SAGE) with NITAGs & RITAGs and support NITAG working groups on covid vaccines			In progress		
	A.6 Develop the National Deployment and Vaccination Plan (NDVP) with input from relevant bodies (National Covid-19 Response Coordinating Committee, CNCC, CTWG, NITAG, National Immunization Programme, National Regulatory Authority, AEFI committee and other relevant groups such as private sector). The NDVP should be in line with WHO guidance and SAGE recommendations (plan can be developed by adapting the Pandemic Influenza NDVP, if existing)				Completed	
	A.7 Identify and plan for the national vaccine access/procurement approach (e.g.					

Suggests timelines and intervals to implement activities

Assesses progress

Pre-planning activities (critical activities that are encouraged to be initiated immediately) are colored in red and highlighted with a "tick" in the corresponding column

C. REGULATORY	C.1 Confirm to WHO the existence of any expedited regulatory pathway for approval of COVID-19 vaccines (i.e. emergency use authorization, exceptional approval/waiver mechanism based on reliance/recognition, abbreviated procedure, fast track, etc.). Time lines and maximum number of days should be mentioned. (expected timeline: maximum 15 working days)	<input checked="" type="checkbox"/>		Completed		
	C.2 Ensure the national regulator or authority has clarified the requirements and documents needed for regulatory approvals of COVID-19 vaccines			In progress		
	C.3 Identify the requirements and documents needed to import COVID-19 vaccines					
	C.4 Confirm to WHO the existence of an expedited import approval/waiver from appropriate authorities. Time lines and maximum number of days should be mentioned. (expected timeline: maximum 5 working days)					
	C.5 Ensure a system to waive local lot release testing based on review of summary protocols is in place. Identify the requirements and documents needed for NRA lot release or waiver of lot release for COVID-19 vaccines. Time lines and maximum number of days for lot release/waiver process should be mentioned. (expected timeline: maximum 2 days)			Completed		
D. PRIORITIZATION, TARGETING & COVID19 SURVEILLANCE	D.1 Monitor progress of NITAG working groups on COVID and interim recommendations focusing on prioritization and risk groups	<input checked="" type="checkbox"/>				
	D.2 Estimate potential numbers of target populations that will be prioritized for access to vaccines stratified by target group and geographic location, i.e. prepare first to define, identify and estimate no. of HCWs					
	D.3 Coordinate with national Covid-19 disease surveillance group to ensure relevant epidemiological data will be collected to inform planning of subsequent rounds of COVAX vaccination, including outbreak responses					

E. SERVICE DELIVERY	E.1 Update protocols for infection prevention and control measures including adequate personal protection equipment (PPE) to minimize exposure risk during immunization sessions	<input checked="" type="checkbox"/>				
	E.2 Identify potential COVID19 vaccine delivery strategies leveraging both existing vaccination platforms and non-vaccination delivery approaches to best reach identified target groups				Completed	
	E.3 Identify and develop a master list and strategy of service providers who could effectively deliver COVID19 vaccine to various target populations					
	E.4 Ensure availability of plans to safeguard the security of staff (e.g. during an emergency or major campaign) as well as security at the central and/or regional storage facilities and for in-transit of products					
F. TRAINING & SUPERVISION	F.1 Develop a training plan to prepare for COVID-19 vaccine introduction that includes the identification of diverse audiences that require training	<input checked="" type="checkbox"/>		Completed		
	F.2 Share the training development plan with WHO for review and update according to feedback received				Not Completed	Completed
	F.3 Develop all training materials as outlined in the training plan, including IPC and risk comms					Completed
	F.4 Conduct virtual and/or in person trainings as outlined in the training plan					Not Completed

G. MONITORING & EVALUATION	G.1 Develop or adapt existing surveillance and monitoring framework with a set of recommended indicators (coverage, AEFI, acceptability, disease surveillance etc...) for COVID-19 vaccine. Determine whether registration and reporting will be individual or aggregate, and to what extent existing tools and systems can be re-used	<input checked="" type="checkbox"/>		Completed		
	G.2. Develop necessary monitoring tools or adapt existing tools: vaccination card/certificate - facility-based nominal registers and/or tally sheets, vaccination reports (paper and/or electronic) and analytical tools to monitor progress and coverage among different at-risk categories					
	G.3 Produce and distribute monitoring tools to eligible vaccination providers, develop, test and roll-out any changes to electronic systems, provide training for use of these tools and processes to traditional and new providers				In progress	In progress
VACCINE, COLD CHAIN & LOGISTICS	H.1 Establish/strengthen the national logistics working group with appropriate terms of reference and standard operating procedures to coordinate COVID-19 vaccines and ancillary products deployment	<input checked="" type="checkbox"/>		Completed		
	H.2 Map key roles and responsibilities needed for vaccine and ancillary products deployment; collect and confirm contact information for key personnel and facilities			Not completed		
	H.3 Map the potential port(s) of entry, points of storage (stores), and fallback facilities in the country with their respective cold chain storage (2-8C, -20C, -60/70C) and transportation capacity for vaccines and ancillary products			Completed		
	H.4 Assess storage and cold chain capacity at all levels with regards to the COVID-19 vaccines characteristics and fill the identified supply and logistics gaps			Completed		
	H.5 Establish contractual agreements to prepare for vaccine introduction (e.g., vaccine warehousing, transport, waste management, cold chain capacity, etc) where applicable			Not completed		

I. SAFETY SURVEILLANCE	I.1 Ensure that guidelines, documented procedures and tools for planning and conducting vaccine pharmacovigilance activities (i.e. AEFI reporting, investigation, causality assessment, risk communication and response) are available.	<input checked="" type="checkbox"/>				
	I.2 Assure competent and trained staff to perform vigilance activities	<input checked="" type="checkbox"/>				
	I.3 Expedite training the AEFI committee to review COVID19 Vaccine safety data (e.g., causality assessment of serious AEFI, clusters of AEFI, emerging safety concerns etc.)	<input checked="" type="checkbox"/>				
	I.4 Identify provisions that require manufacturers to implement risk management plans and collect and report COVID19 Vaccine safety data to the NRA	<input checked="" type="checkbox"/>				
	I.5 Develop a strategy for communicating COVID19 vaccine safety issues to all relevant stakeholders, and for addressing vaccine safety crises	<input checked="" type="checkbox"/>				
	I.6 Plan active surveillance of specific COVID19 vaccine related adverse events. If this is not possible, develop provisions that allow reliance on active surveillance data, decisions, and information from other countries or regional or international bodies	<input checked="" type="checkbox"/>				
	I.7 Establish a coordination mechanism between relevant stakeholders (NRA, EPI, MAH, MOH, WHO and others) for exchange of COVID19 Vaccine safety information					
	I.8 Secure communication channels to share COVID19 vaccine safety data and findings with relevant regional and international partners					
J. DEMAND GENERATION & COMMUNICATION	J.1 Design a demand plan (includes advocacy, communications, social mobilization, risk comms and community engagement, and training) to generate support for vaccine confidence, trust, and demand for COVID-19 vaccines	<input checked="" type="checkbox"/>				
	J.2 Establish data collection systems, including 1) social media listening and rumor management, and 2) assessing behavioral and social data					
	J.3 Develop key messages and materials for public communications and advocacy, in alignment with demand plan					

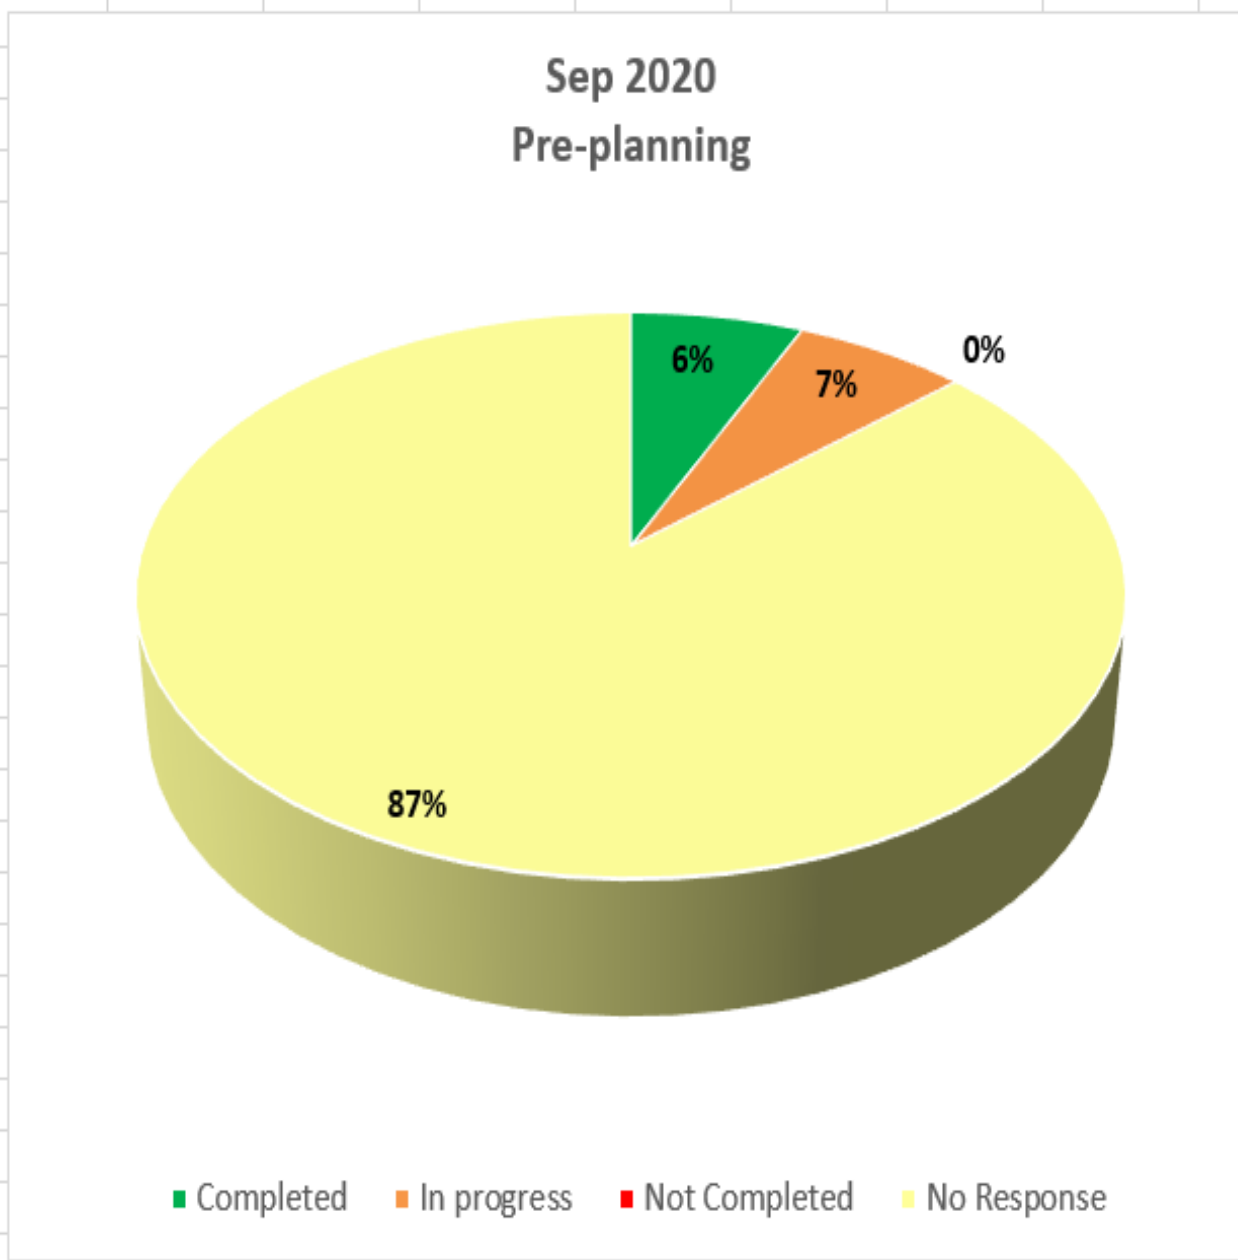

NATIONAL READINESS

D. PRIORITIZATION, TARGETING & COVID19 SURVEILLANCE	D.1 Monitor progress of NITAG working groups on COVID and interim recommendations focusing on prioritization and risk groups	<input checked="" type="checkbox"/>	Yellow	Yellow	Yellow	Grey
	D.2 Estimate potential numbers of target populations that will be prioritized for access to vaccines stratified by target group and geographic location, i.e. prepare first to define, identify and estimate no. of HCWs		Grey	Yellow	Yellow	Grey
	D.3 Coordinate with national Covid-19 disease surveillance group to ensure relevant epidemiological data will be collected to inform planning of subsequent rounds of COVAX vaccination, including outbreak responses		Grey	Yellow	Yellow	Grey
E. SERVICE DELIVERY	E.1 Update protocols for infection prevention and control measures including adequate personal protection equipment (PPE) to minimize exposure risk during immunization sessions	<input checked="" type="checkbox"/>	Yellow	Yellow	Grey	Grey
	E.2 Identify potential COVID19 vaccine delivery strategies leveraging both existing vaccination platforms and non-vaccination delivery approaches to best reach identified target groups		Grey	Yellow	Completed	Grey
	E.3 Identify and develop a master list and strategy of service providers who could effectively deliver COVID19 vaccine to various target populations		Grey	Yellow	Yellow	Grey
	E.4 Ensure availability of plans to safeguard the security of staff (e.g. during an emergency or major campaign) as well as security at the central and/or regional storage facilities and for in-transit of products		Grey	Yellow	Yellow	Grey

Optimal time frames for the completion of activities are shaded yellow

Under each timeline or assessment period, the country only needs to provide information on the activity cells that are shared yellow.
