WHO Global Code of Practice- information exchange

- **Article 7.2**: Member States should provide data on the Code implementation to WHO Secretariat every three years.
- **Article 9.2:** The WHO Director-General should periodically report to the World Health Assembly on Code implementation.
- **Article 9.5:** "The World Health Assembly should periodically review the relevance and effectiveness of the Code. The Code should be considered a dynamic text that should be brought up to date as required."

Timeline

Member State reporting on the Code implementation

- Each country nominates a **Designated National Authority** (DNA) to exchange information on health workforce and shares contact information with WHO.

- DNAs receive email from WHOGlobalCode@who.int to with a **customised link** to the national reporting instrument (NRI) for each country.

Submission date:
31 August 2024

National Reporting Instrument (NRI) - 2024

WHO Health Workforce Team <WHOGlobalCode@who.int>
To ⊙ tba, ⊙ WHOGlobalCode

Dear tba,

We are writing to you in your capacity as the designated national authority (DNA) to invite the participation of Luxembourg, in the fifth roun Recruitment of Health Personnel ("the Code"). Adopted in 2010 at the 63rd World Health Assembly (WHA Res 63.16), the WHO Global Code the understanding and ethical management of international health personnel recruitment through improved data, information, and internat

Article 7 of the Code encourages WHO Member States to exchange information on the international recruitment and migration of health per years.

WHO Member States completed the 4th round of national reporting in May2022. The WHO Director General reported progress on implemen highlighted the need to assess implications of health personnel emigration in the context of additional vulnerabilities brought about by the C effectiveness of the Code (A 73/9) was reconvened. Following the recommendations of the Expert Advisory Group, the Secretariat has publis

The National Reporting Instrument (NRI) is a country-based, self-assessment tool for information exchange and Code monitoring. The NRI en recruitment and migration of health personnel. The findings from the 5th round of national reporting will be presented to the Executive Boar
